Global Rates Watch

Rates primer library: summer ’25 edition

Global rates primer library

The BofA global rates strategy team has published several primers over recent years. Our list of primers has expanded over time and are updated periodically. Page 2 has a list of our most recent global rate primers + associated links, updated for summer ‘25. We have a more extensive list of training decks from our summer teach-in series; the ’25 summer teach in series link can be found here: Global rates teach-in series 2025.

US rate primers: funding, vol, RV, & general topics

The US rates teams has written a series of primers ranging from funding markets, volatility, & relative value (RV) relationships. On funding, our current primers cover Fed policy plumbing, the US Treasury repo market, & SOFR rate / SOFR spreads. In volatility, we have an extensive primer that is intended as a “guide for the perplexed”. In RV, we have discussed relative value on the UST curve.

The US rates team has also published primers on general rates topics. These range from spot vs forward rates, a Treasury auction primer, & curve dynamics / neutral rate. We also collaborated with our MBS colleagues on convexity hedging & the UST market.

EU, UK, & Japan primers: funding, supply, & RV

The EU team has written a range of primers. Topics include the ECB balance sheet, eurozone sovereign debt markets, & a range of RV tools across the EU rates spectrum.

The UK & Japan teams have also created primers. Our most recent UK primer is on the debt management office (DMO) standing repo facility. Our most recent Japan rates primer includes a specific focus on BoJ open market & rinban operations.

Global rate primers: funding & inflation

The rates team has primers on global funding & inflation markets. Global funding topics include a short guide to ’25 global monetary policy implementation & a primer on the FX-SOFR market. We have also written an extensive guide to global inflation markets.

Technicals: technical strategy & seasonality

Our chief FICC & equity technical strategist, Paul Ciana, says it's never too late to get to know more about technical analysis. His 165-page primer covers 34 popular technical topics. His bond market seasonality primer remains a helpful guide, too.

Primer library outlook: continued evolution

As we create new primers or refresh old publications we will update our global library. The most recent primer list & associated links are on page 2. The global rates strategy team welcomes feedback on our current primers & future publications.

General Investment Related Disclosures:

Taiwan Readers: Neither the information nor any opinion expressed herein constitutes an offer or a solicitation of an offer to transact in any securities or other financial instrument. No part of this report may be used or reproduced or quoted in any manner whatsoever in Taiwan by the press or any other person without the express written consent of BofA Securities.

This document provides general information only, and has been prepared for, and is intended for general distribution to, BofA Securities clients. Neither the information nor any opinion expressed constitutes an offer or an invitation to make an offer, to buy or sell any securities or other financial instrument or any derivative related to such securities or instruments (e.g., options, futures, warrants, and contracts for differences). This document is not intended to provide personal investment advice and it does not take into account the specific investment objectives, financial situation and the particular needs of, and is not directed to, any specific person(s). This document and its content do not constitute, and should not be considered to constitute, investment advice for purposes of ERISA, the US tax code, the Investment Advisers Act or otherwise. Investors should seek financial advice regarding the appropriateness of investing in financial instruments and implementing investment strategies discussed or recommended in this document and should understand that statements regarding future prospects may not be realized. Any decision to purchase or subscribe for securities in any offering must be based solely on existing public information on such security or the information in the prospectus or other offering document issued in connection with such offering, and not on this document.

Securities and other financial instruments referred to herein, or recommended, offered or sold by BofA Securities, are not insured by the Federal Deposit Insurance Corporation and are not deposits or other obligations of any insured depository institution (including, Bank of America, N.A.). Investments in general and, derivatives, in particular, involve numerous risks, including, among others, market risk, counterparty default risk and liquidity risk. No security, financial instrument or derivative is suitable for all investors. Digital assets are extremely speculative, volatile and are largely unregulated. In some cases, securities and other financial instruments may be difficult to value or sell and reliable information about the value or risks related to the security or financial instrument may be difficult to obtain. Investors should note that income from such securities and other financial instruments, if any, may fluctuate and that price or value of such securities and instruments may rise or fall and, in some cases, investors may lose their entire principal investment. Past performance is not necessarily a guide to future performance. Levels and basis for taxation may change.

BofA Securities is aware that the implementation of the ideas expressed in this report may depend upon an investor's ability to "short" securities or other financial instruments and that such action may be limited by regulations prohibiting or restricting "shortselling" in many jurisdictions. Investors are urged to seek advice regarding the applicability of such regulations prior to executing any short idea contained in this report.

This report may contain a trading idea or recommendation which highlights a specific identified near-term catalyst or event impacting a security, issuer, industry sector or the market generally that presents a transaction opportunity, but does not have any impact on the analyst's particular "Overweight" or "Underweight" rating (which is based on a three month trade horizon). Trading ideas and recommendations may differ directionally from the analyst's rating on a security or issuer because they reflect the impact of a near-term catalyst or event.

Foreign currency rates of exchange may adversely affect the value, price or income of any security or financial instrument mentioned in this report. Investors in such securities and instruments effectively assume currency risk.

BofAS or one of its affiliates is a regular issuer of traded financial instruments linked to securities that may have been recommended in this report. BofAS or one of its affiliates may, at any time, hold a trading position (long or short) in the securities and financial instruments discussed in this report.

BofA Securities, through business units other than BofA Global Research, may have issued and may in the future issue trading ideas or recommendations that are inconsistent with, and reach different conclusions from, the information presented herein. Such ideas or recommendations may reflect different time frames, assumptions, views and analytical methods of the persons who prepared them, and BofA Securities is under no obligation to ensure that such other trading ideas or recommendations are brought to the attention of any recipient of this information.

In the event that the recipient received this information pursuant to a contract between the recipient and BofAS for the provision of research services for a separate fee, and in connection therewith BofAS may be deemed to be acting as an investment adviser, such status relates, if at all, solely to the person with whom BofAS has contracted directly and does not extend beyond the delivery of this report (unless otherwise agreed specifically in writing by BofAS). If such recipient uses the services of BofAS in connection with the sale or purchase of a security referred to herein, BofAS may act as principal for its own account or as agent for another person. BofAS is and continues to act solely as a broker-dealer in connection with the execution of any transactions, including transactions in any securities referred to herein.
